

Grand Hotel Union: SLAS&CroLASA Congress, June 15, 2023

7.30-8.30	registration	WS: 8.00-10.45
8.30-8.50	opening	David Anderson
8.40-8.50	FELASA President: A brief introduction to FELASA	FELASA workshop on classification and reporting of severity of procedures Farm Animal Models
8.50-9.20	Klas Abelson: Refinement of painful procedures – are we good enough?	
9.20-9.50	Delphine Bouard: Improving aseptic conditions in laboratory animals: a major refinement tool	
9.50-10.20	Belen Pintado: Genetically altered animals through the lens of Directive 2010/63/EU	
10.20-10.40	Simon Koren: Reducing animal usage and revealing new insights: the power of in vivo imaging technologies in preclinical research	
10.40 -11.15	coffee break	WS: 11.00-13.30
11.15-11.45	Adrian Smith: PREPARE for Better Science: Guidelines for animal research and testing	Belen Pintado Workshop on specific provisions of Directive 2010/63/EU on the use of genetically altered animals in scientific
11.45-12.10	Aleš Belič: Animal models: RNA expression analyses as an important source of irreproducibility and low translatability	
12.10-12.25	Anemari Horvat: Stress promotes lipid droplet accumulation in astrocytes	
12.25-12.40	Sara Orehek: Antitumor immunity boosted by gasdermin D induced necrosis	
12.40-12.55	Polona Kovačič: Extent of necrosis as a measure of acute pancreatitis severity in studies employing live cell imaging	
12.55-13.05	Carlo Demalde: Tecniplast – your partner for animal facility	
13.05 -14.15	LUNCH	WS: 13.45-16.45
14.15-14.40	Chris Van Ginneken: Pigs in research, what about the piglet?	David Anderson Dolores Bonaparte FELASA workshop on classification and reporting of severity of procedures Rodent & Rabbit Models
14.40-15.05	Alenka Seliškar: Anaesthesia and analgesia in calves, goats, sheep and pigs used for biomedical research	
15.05-15.30	Amir Rosner: Equine species in research and education	
15.30-15.45	Malan Štrbenc: Successful rehoming as ultimate refinement for golden hamsters in SARS-CoV-2 vaccine research	
15.45-16.00	Maša Čater: Improving biomedical research by automated behaviour monitoring in the animal home cage (COST TEATIME)	
16.00-16.10	Mike Douglas: Allentown	
16.10-16.45	coffee break	
16.45-17.15	JP Mocho: FELASA recommendations for health monitoring and euthanasia of laboratory fish	
17.15-17.20	180s	
17.20-17.25		
17.25-17.30		
17.30-17.35		
17.35-17.40		
17.40-17.45		
17.45-17.50		
17.50-18.00	Kristijan Jurkovic: Animalab - your trusted partner in life-science research	
18.00-18.30	CHEESE AND WINE RECEPTION	
18.30h	SLAS AWARDS (the best 180s presentations)
